I owe a lot of the material presented in this book to Josef Hladký, the author of *A Guide to Pre-Modern English*, which is the basis of some of the chapters of the present handbook. I am also very grateful to Václav Blažek and Jan Čermák for their kind revision and amendments to the text, and to the authors of chapters on the history of Indo-European languages and the history of English in the free encyclopedia *Wikipedia*, from which I have derived a lot of data and images of documents and maps.
