4.1. Rejstřík slov

V rejstříku jsou slova uvedena včetně připojených jmenných sufixů znamenovaných v mongolském písmu odděleně. Pro sufixy nejsou vytvořena zvláštní hesla s výjimkou sociativního sufixu *-luγ-a/-lüge*, který často nezachovává vokální harmonii. Číslo folií odpovídají reálnému očíslování listů v rukopise, čísla za lomítkem označují sloupec.
