VOCABULARY

First One Hundred Words

The first-one-hundred-word vocabulary is a continuation of the first-fifty-word vocabulary. The first fifty items are therefore identical with those in the first section. Only those forms, however, were taken into consideration which were used by the child at the time when his word-stock reached the number of one hundred words, i. e. at the age of 1, 3, 0. Their older realizations are omitted here and can be found in the vocabulary of the first section.
