## Acknowledgements

I owe a debt of gratitude especially to Jan Firbas, who supervised my research for a number of years and who devoted innumerable hours of his precious time to discussions of the topics dealt with in my doctoral dissertation – the basis of this book. I am also deeply grateful to Jan Svartvik, who advised me on the conception of the dissertation during my stay at Lund University. Last but not least, I would like to thank Libuše Dušková and Aleš Svoboda, who reviewed the dissertation and made a number of valuable comments and suggestions, and Matthew Nicholls, who carried out a most careful language revision of the text of this book.
